KATA PENGANTAR

Puji syukur kami panjatkan kehadirat Tuhan Yang Maha Esa karena dengan rahmat, karunia, serta hidayah-Nya kami dapat menyelesaikan final project mengenai penyewaan pakaian adat dan dress dengan baik meskipun masih ada kekurangan didalamnya. Dan kami juga berterima kasih pada Bapak Dr. Eng. Agussalim, M.T. selaku dosen mata kuliah Pemrograman Web yang telah memberikan tugas akhir ini kepada kami.

Kami sangat berharap website ini dapat berguna dalam rangka menambah wawasan serta pengetahuan mengenai pembuatan website di mata kuliah pemrograman website ini. Kami juga menyadari sepenuhnya bahwa di dalam website sederhana ini masih terdapat kekurangan dan jauh dari kata sempurna. Oleh sebab itu, kami berharap adanya kritik dan saran demi perbaikan website penyewaan pakaian adat dan dress yang telah kami buat di masa yang akan datang, mengingat tidak ada yang sempurna tanpa adanya saran yang membangun.

Semoga website penyewaan pakaian adat dan dress ini dapat dimengerti bagi siapa saja yang menggunakan. Sekiranya laporan yang telah disusun ini dapat berguna bagi kami sendiri maupun orang yang membacanya. Sebelumnya kami mohon maaf apabila terdapat kesalahan kata-kata yang kurang berkenan dan dapat disampaikan kritik dan saran yang membangun.

Surabaya, 20 April 2021

PENDAHULUAN

Teknologi merupakan hal yang tidak dapat terpisahkan dalam kehidupan sehari-hari. Dapat dipastikan setiap kegiatan yang ada pasti berhubungan dengan teknologi. Dalam konteks bisnis perusahaan dan pelanggan tidak lagi dibatasi dengan jarak dan waktu dimana semuanya dilakukan melalui media website atau media *mobile*. Kali ini perusahaan dituntut untuk memiliki sebuah web untuk berkomunikasi dengan pelanggan agar dapat bersaing serta lebih unggul dengan perusahaan lain yang bergerak dibidang yang sama.

Ann's Clothes merupakan sebuah usaha dibidang jasa, dimana menyediakan penyewaan baju adat serta gaun pernikahan untuk hari special para pelanggan. Dulu sebelum teknologi makin canggih, penyewaan baju dilakukan dengan sistem manual yaitu pelanggan datang langsung ke lokasi untuk menyewa atau booking baju.

Dibutuhkan sebuah rancangan dan sistem informasi berbasis *website* yang menyediakan beberapa kebutuhan bagi pelanggan untuk memudahkan proses mencari informasi mengenai penyewaan atau booking baju untuk acara yang ingin dihadiri para pelanggan. Website menyediakan sumber data dan informasi yang dapat diakses oleh semua orang melalui internet. Dengan menggunakan salah satu software browser seperti internet explore, Mozilla firefox, oper browser, maupun google chrome. Dengan menggunakan fasilitas ini maka pemakai dapat menjelajahi segala informasi dan berita-berita dunia. (Andriansyah, 2020)

HTML (Hypertext Markup Language) merupakan gabungan dari dua istilah yaitu hypertext dan markup language. Hypertext merupakan dokumen berisi tautan yang memungkinkan pengguna terhubung ke halaman lain. Markup language, bahasa komputer yang terdiri dari sekumpulan kode untuk mengatur struktur dan menyajikan informasi. HTML adalah bahasa markup untuk membuat struktur halaman website.

PHP (Hypertext Preprocessor) adalah sebuah bahasa pemrograman server side scripting yang bersifat open source. Script PHP tidak dapat dilihat dengan menggunakan fasilitas view HTML source, yang ada pada web browser seperti internet Explorer atau

semacamnya. Aplikasi dengan PHP dapat dikenal web browser apapun, saat aplikasi dijalankan maka server akan mengerjakan script dan hasilnya dikirim ke web browser.

Cascade Style Sheet merupakan template yang mengontrol performatan tag HTML pada halaman web site. Konsep Style Sheet mirip dengan template pada Microsoft Word, bisa diubah dengan penampilan pada dokumen word, mengubah format pada style dokumen. Kemudahan dalam pengolahan *database* dengan *interface web* yang familiar menjadi kelebihan tersendiri *Phpmyadmin*. (Fajri, 2012)

TUJUAN

Tujuan dibuatnya website Final Project “Ann’s Clothing” ini adalah :

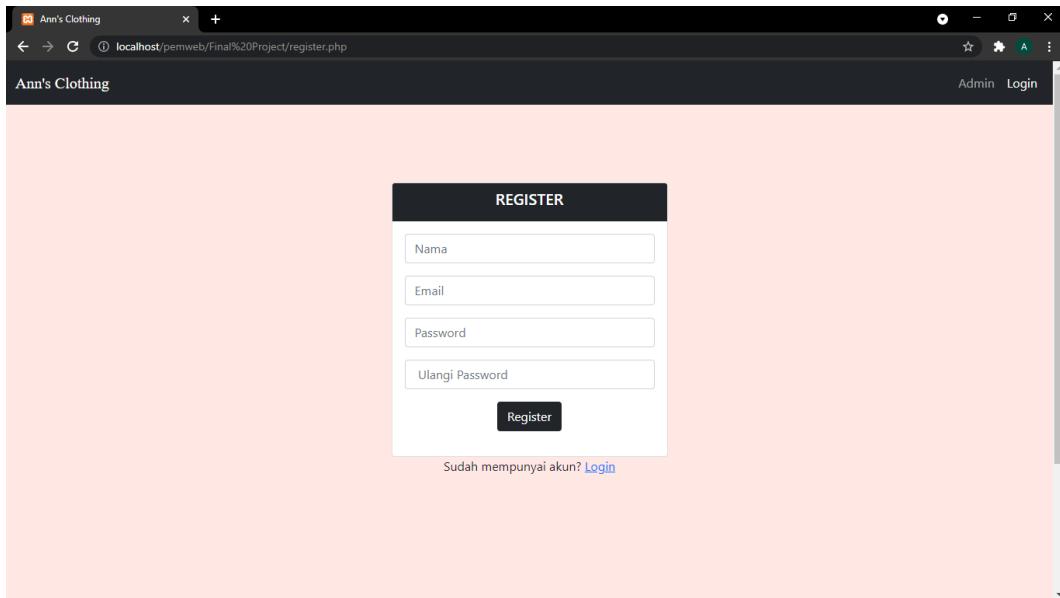

1. Untuk merancang aplikasi berbasis Web yang berguna untuk mempermudah penyewaan pakaian adat atau dress untuk pemilik dan pelanggan.
2. Mengimplementasikan perangkat lunak untuk membantu penyediaan informasi penyewaan yang berbasis *website*, agar dapat lebih mudah melalui internet.

PERANCANGAN

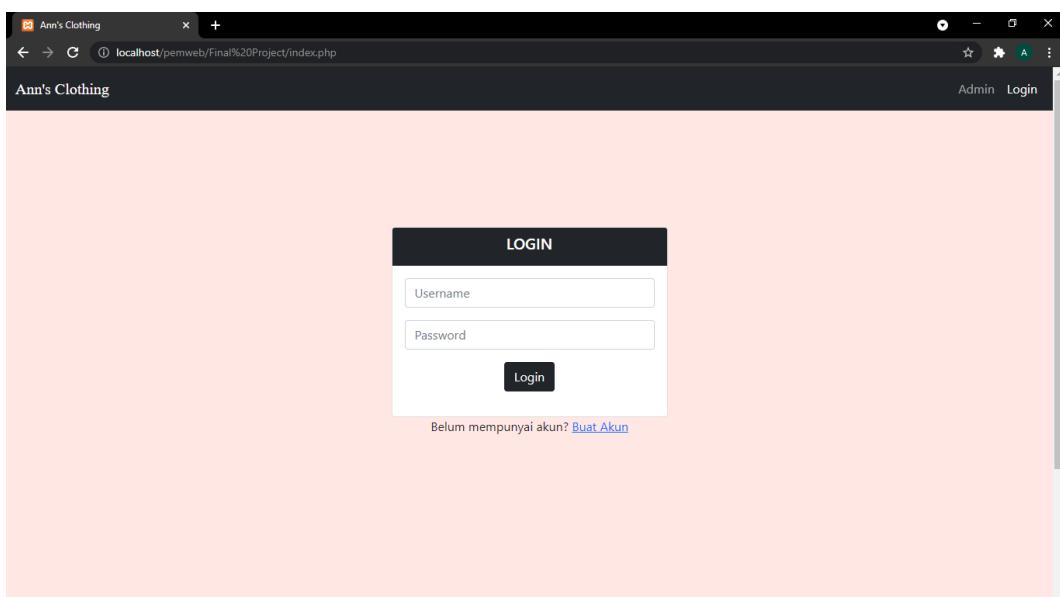

Rancangan tampilan web

Setiap halaman website Ann's Clothing terdiri dari navbar, header, body dan juga footer. Untuk tampilan setiap halaman dapat dilihat sebagai berikut :

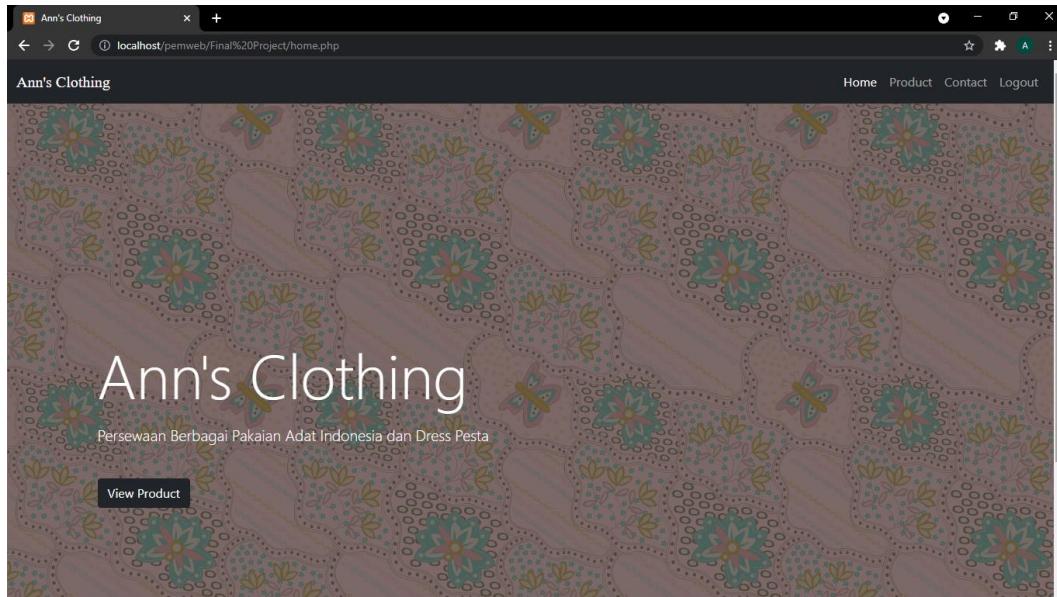

Halaman Register

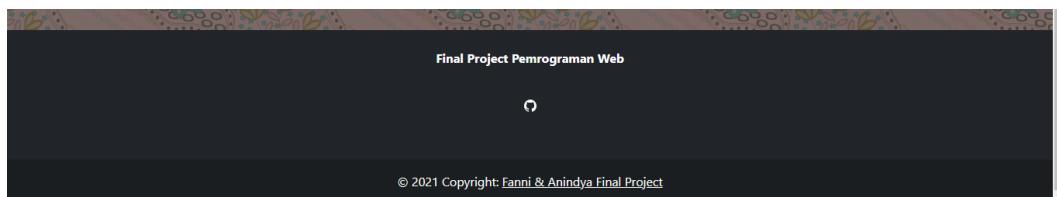

Halaman Login User

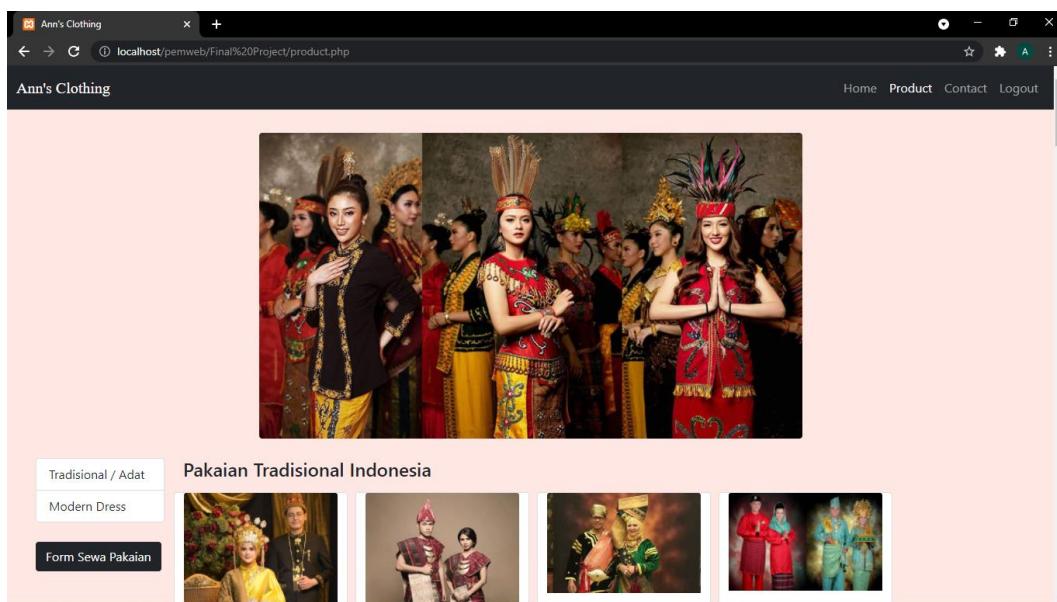

Halaman Home User

Final Project Pemrograman Web

Halaman List Kategori

The screenshot shows a web browser window titled "Ann's Clothing" with the URL "localhost/pemweb/Final%20Project/kategori.php". The page has a header with links for Home, List, Report, Chart, and Logout. Below the header is a title "Daftar Kategori Persewaan Ann's Clothing". A navigation bar at the top includes "Daftar Produk", "Daftar Kategori" (which is highlighted), "Daftar Akun Pelanggan", and "Daftar Akun Admin". The main content area displays a table with the following data:

No	Id Kategori	Nama Kategori
1	1	tradisional / adat
2	2	modern dress

Halaman List Akun User

The screenshot shows a web browser window titled "Ann's Clothing" with the URL "localhost/pemweb/Final%20Project/accuser.php". The page has a header with links for Home, List, Report, Chart, and Logout. Below the header is a title "Daftar Akun Pelanggan Persewaan Ann's Clothing". A navigation bar at the top includes "Daftar Produk", "Daftar Kategori", "Daftar Akun Pelanggan" (which is highlighted), and "Daftar Akun Admin". The main content area displays a table with the following data:

No	Id User	Nama User	Email User
1	1	user	user_1@gmail.com
2	2	fanni	fanni_2@gmail.com
3	3	Berliana	bella_3@gmail.com
4	5	Cici	cicimelie@gmail.com

At the bottom of the page, there is a footer bar with the text "Final Project Pemrograman Web" and a small circular logo.

Halaman List & Kelola Admin

The screenshot shows a web browser window titled "Ann's Clothing" with the URL "localhost/pemweb/Final%20Project/accadmin.php". The page has a dark header with "Ann's Clothing" and navigation links: Home, List, Report, Chart, Logout. Below the header is a pink header bar with the title "Daftar Admin Persewaan Ann's Clothing". A black navigation bar below it contains "Daftar Produk", "Daftar Kategori", "Daftar Akun Pelanggan", and "Daftar Akun Admin" (which is highlighted). The main content area is a table with the following data:

No	Id Admin	Nama Admin	Email Admin	Act
1	1	admin	admin_1@gmail.com	Edit Delete
2	2	nindy	nindy_2@gmail.com	Edit Delete
3	3	fanni	fanni_3@gmail.com	Edit Delete

At the bottom left is a button labeled "Tambah Admin".

Halaman Report Persewaan

The screenshot shows a web browser window titled "Ann's Clothing" with the URL "localhost/pemweb/Final%20Project/report.php". The page has a dark header with "Ann's Clothing" and navigation links: Home, List, Report, Chart, Logout. Below the header is a pink header bar with the title "Laporan Persewaan Ann's Clothing". A black navigation bar below it contains "Daftar Produk", "Daftar Kategori", and "Daftar Akun Pelanggan". The main content area is a table with the following data:

Source code

Koneksi.php

```
File Edit Selection View Go Run Terminal Help
koneksi.php - pemweb - Visual Studio Code

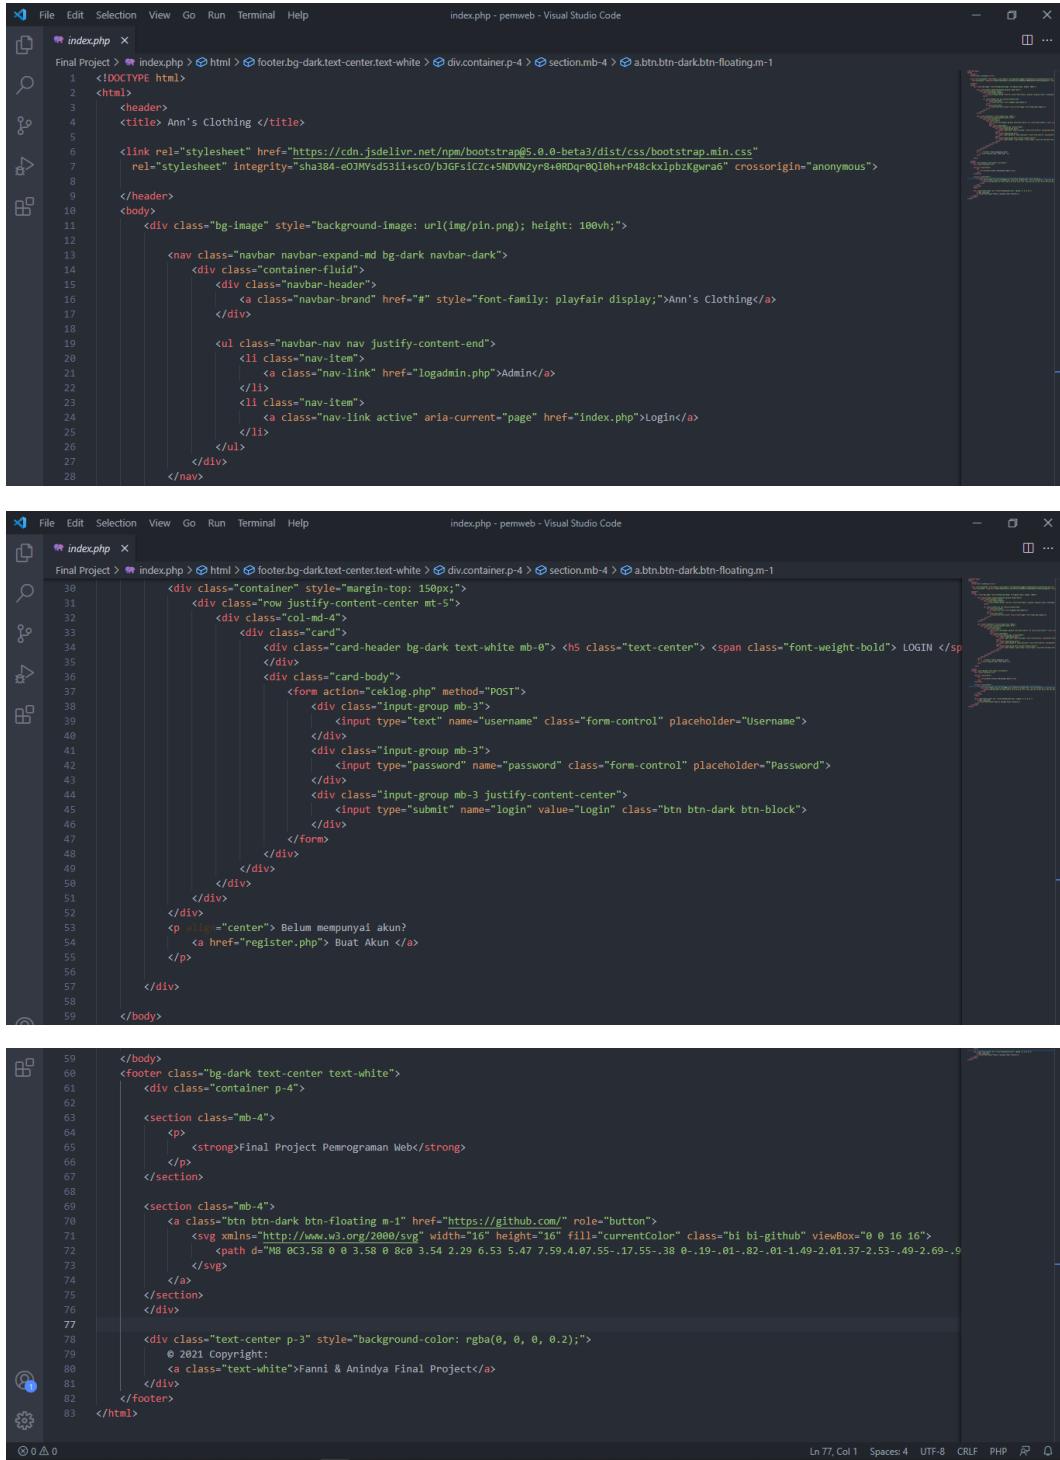

koneksiphp x
Final Project > koneksiphp > ...
1 //php
2 //konfigurasi database
3 //membuat variabel
4 $host      = "localhost";
5 $user      = "root";
6 $password  = "";
7 $database  = "db_sewa";
8 //perintah php untuk akses koneksi ke database
9 $koneksi = mysqli_connect($host, $user, $password, $database);
10 ?
```

Penjelasan koneksi.php :

Pada baris 4 – 5 membuat variable \$host, \$user, \$password, dan \$database masing – masing berisi “localhost” untuk nama host, “root” untuk nama user database, “” untuk password (kosong / tidak ada password), “db_sewa” untuk nama database yang digunakan.

Lalu pada baris 9 terdapat variable koneksi, dan ada perintah php yaitu mysqli_connect untuk akses koneksi database yang dimasukan dalam variable \$host, \$user, \$password, dan \$database.

Index.php

The image shows three vertically stacked screenshots of the Visual Studio Code editor, each displaying a portion of the index.php file. The code is written in PHP and uses Bootstrap 5.0.0 for styling.

Top Window (Lines 1-28):

Penjelasan index.php :

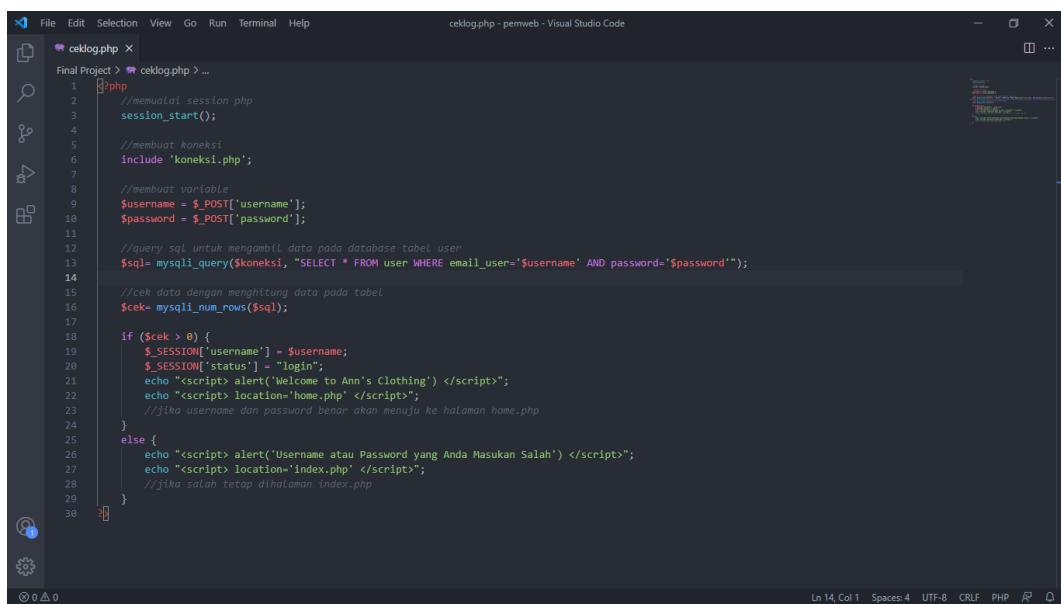

Pada index.php ini merupakan halaman untuk login user, di halaman ini dan halaman lainnya menggunakan bootstrap 5.0.0 untuk membuat tampilannya. Pada header, terdapat title Ann's Clothing dan link untuk menghubungkan pada link bootstrap.

Kemudian pada body menggunakan background gambar polos dari folder img, dan untuk navbar menggunakan navbar-dark yang berarti berwarna gelap dan text akan berwarna putih. Navbar terdiri dari navbrand yang di beri nama “Ann’s Clothing” dan nav-link untuk link yang mengarahkan pada halaman lain yaitu Admin maupun Login (current page), current page akan berwarna lebih terang dari nav-link lainnya.

Selanjutnya pada div class = container menggunakan card untuk form login yang berisi input untuk username / email dan password, dan input button submit untuk login. Ketika button tersebut di klik, akan mengarah ke halaman ceklog.php untuk di eksekusi.

Lalu pada bagian footer setiap halaman website Ann’s Clothing mempunyai tampilan footer yang sama berisi informasi “Final Project Pemrograman Web”, button link Github, dan juga “© 2021 Copyright: Fanni & Anindya Final Project”

Ceklog.php

The screenshot shows the Visual Studio Code interface with the file 'ceklog.php' open. The code is a PHP script that performs a database query to check if a user exists based on provided credentials. It uses sessions to store the user's status and logs them in if successful, or displays an error message if the credentials are incorrect.

```
1 <?php
2 //memulai session php
3 session_start();
4
5 //membuat koneksi
6 include 'koneksi.php';
7
8 //membuat variable
9 $username = $_POST['username'];
10 $password = $_POST['password'];
11
12 //query sql untuk mengambil data pada database tabel user
13 $sql= mysqli_query($koneksi, "SELECT * FROM user WHERE email_user='$username' AND password='$password'");
14
15 //cek data dengan menghitung data pada tabel
16 $cek= mysqli_num_rows($sql);
17
18 if ($cek > 0) {
19     $_SESSION['username'] = $username;
20     $_SESSION['status'] = "login";
21     echo "<script> alert('Welcome to Ann's Clothing') </script>";
22     echo "<script> location='home.php' </script>";
23     //jika username dan password benar akan menuju ke halaman home.php
24 }
25 else {
26     echo "<script> alert('Username atau Password yang Anda Masukan Salah') </script>";
27     echo "<script> location='index.php' </script>";
28     //jika salah tetap dihalaman index.php
29 }
```

Penjelasan ceklog.php :

Pada ceklog.php ini akan dicek username dan password user, dari database table user. Jika keduanya benar akan diarahkan ke halaman home.php yaitu halaman home user dan jika salah akan tetap berada di halaman login dan muncul alert “Username atau password yang anda masukan Salah”.

```

Penjelasan register.php :

Pada register.php ini kurang lebih sama seperti login user, pada input form register memasukan nama, email, password, dan konfirmasi password. Register akan di eksekusi pada cekreg.php

Cekreg.php

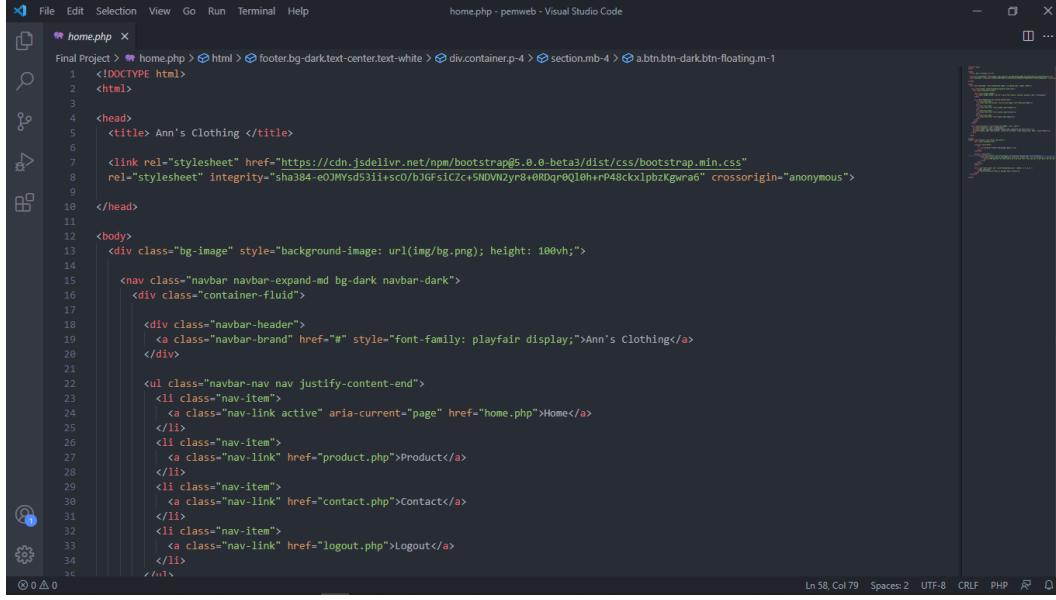

The screenshot shows the Visual Studio Code interface with the file 'cekreg.php' open. The code is a PHP script designed to validate user input for a registration form. It includes session handling, database connection, and validation logic for name, email, and password fields. The code uses MySQLi for database operations and includes error handling and user feedback via echo statements.

The screenshot shows two code editors in Visual Studio Code. The top editor contains the PHP file `product.php`, which displays a list of four products (Cocktail Dress, Empire Waist Dress, Kaftan Dress, Lace Dress) each with an image, title, price, and a "Sewa" button. The bottom editor contains the PHP file `footer.php`, which includes a copyright notice and a GitHub link.

Penjelasan product.php :

Pada halaman produk ini akan menampilkan list produk beserta contoh gambar setiap pakaian. Dan ada button group untuk scrollspy agar dapat scroll ke bawah berdasarkan kategori tradisional maupun modern. Lalu ada button form sewa, dan sewa yang akan mengarahkan pada halaman form persewaan Ann's Clothing.

The screenshot shows a Visual Studio Code window with the following details:

- Title Bar:** File, Edit, Selection, View, Go, Run, Terminal, Help, form_sewa.php - pemweb - Visual Studio Code
- Left Sidebar:** Includes icons for file operations like Open, Save, Find, and others.
- Code Editor:** The main area contains PHP code for a form submission script named `form_sewa.php`. The code includes database connection logic, form validation, and SQL insertion queries. It also handles user input sanitization using a `cek_input` function.
- Right Sidebar:** Shows a preview of the database schema and a preview of the page output.
- Status Bar:** L153, Col 52, Spaces:4, UTF-8, CRLF, PHP, and a refresh icon.

Penjelasan logadmin.php :

Pada logadmin.php ini hanya admin yang dapat melakukan log in. Dimana hanya email dan password yang sudah terdapat di database.

Cekadm.php

```

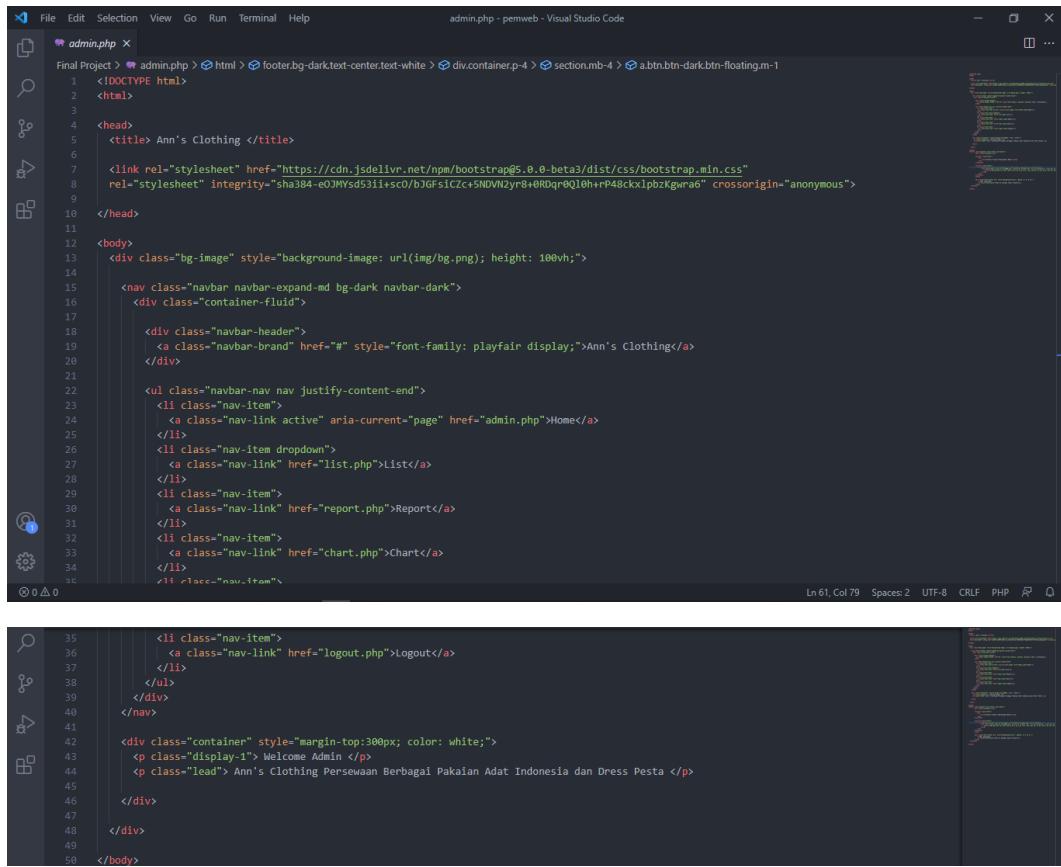

1 <?php
2   //mulai session php
3   session_start();
4 
5   //membuat koneksi
6   include 'koneksi.php';
7 
8   //membuat variable
9   $username = $_POST['username'];
10  $password = $_POST['password'];
11 
12  //query sql untuk mengambil data pada database tabel admin
13  $sql= mysqli_query($koneksi, "SELECT * FROM admin WHERE email_admin='$username' AND password='$password'");
14 
15  //cek data dengan menghitung data pada tabel
16  $cek= mysqli_num_rows($sql);
17 
18  if ($cek > 0) {
19    $_SESSION['username'] = $username;
20    $_SESSION['status'] = "login";
21    echo "<script> alert('Welcome Admin Ann's Clothing') </script>";
22    echo "<script> location='admin.php' </script>";
23    //jika username dan password benar akan menuju ke halaman admin.php
24  }
25  else {
26    echo "<script> alert('Username atau Password yang Anda Masukan Salah') </script>";
27    echo "<script> location='logadmin.php' </script>";
28    //jika salah tetap dihalaman Logadmin.php
29  }
30 

```

Penjelasan cekadm.php :

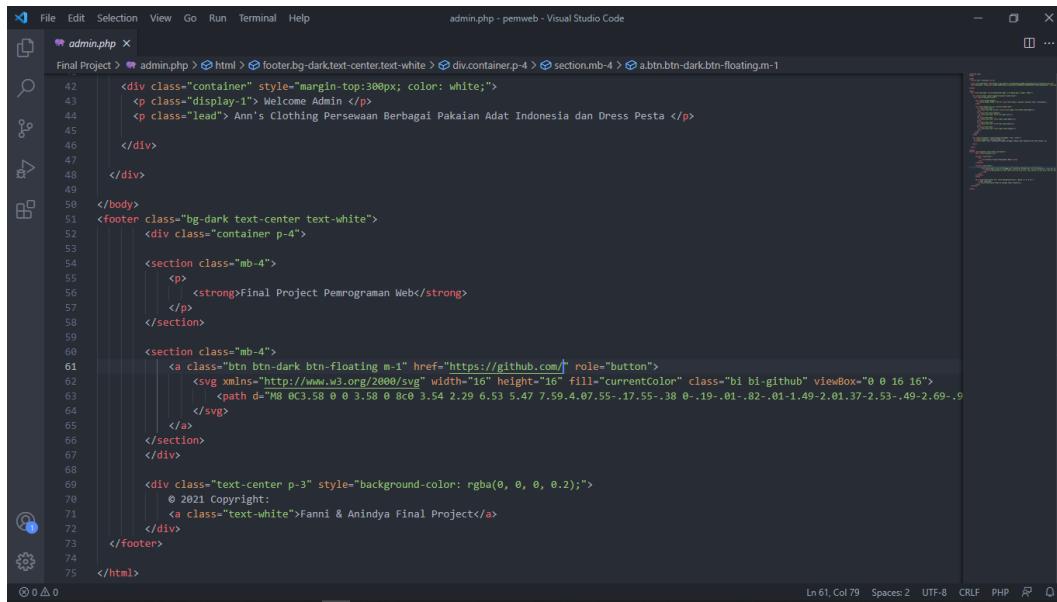

Pada logadmin.php ini akan dicek email dan password user, dari database table user. Jika keduanya benar akan diarahkan ke halaman home.php yaitu halaman home user dan jika salah akan tetap berada di halaman login admin dan muncul alert “Username atau password yang anda masukan Salah”.

Admin.php

The screenshot shows the Visual Studio Code interface with the Admin.php file open. The code is a PHP script that includes an HTML header and body. It features a Bootstrap-based navigation bar with links to Home, List, Report, Chart, and Logout. The main content area displays a welcome message for the Admin user.

A screenshot of Visual Studio Code showing a PHP file named `tambah_produk.php`. The code handles form validation and database insertion. It includes error handling for empty fields and non-numeric prices. If successful, it inserts the data into the `produk` table and displays a success message. The code uses MySQLi for database operations.

```
35     $id_kategori = cek_input($_POST["id_kategori"]);
36 
37     if (empty($_POST["harga_sewa"])) {
38         $error_harga_sewa = "Harga Sewa tidak boleh kosong";
39     } else {
40         $harga_sewa = cek_input($_POST["harga_sewa"]);
41         if (!is_numeric($harga_sewa)) {
42             $error_harga_sewa = 'Harga Sewa hanya boleh angka';
43         }
44     }
45 
46     include 'koneksi.php';
47 
48     if (empty($nama_produk) && empty($id_kategori) && empty($harga_sewa)) {
49 
50         $sql = "INSERT INTO produk SET nama_produk='$nama_produk', id_kategori='$id_kategori', harga_sewa='$harga_sewa'";
51 
52         if (mysql_query($koneksi, $sql)) {
53             echo "<script> alert('Data Berhasil Tersimpan') </script>";
54             echo "<meta HTTP-EQUIV='REFRESH' content='3; list.php'>";
55         } else {
56             echo "<script> alert('Data Gagal disimpan') </script>";
57         }
58     }
59 
60     function cek_input($data) {
61         $data = trim($data);
62         $data = stripslashes($data);
63         $data = htmlspecialchars($data);
64         return $data;
65     }
66 
67     $data = cek_input($_POST["harga_sewa"]);
68 
69 }
```

A screenshot of Visual Studio Code showing the HTML portion of the `tambah_produk.php` file. It includes a CSS rule for a background image, a navigation bar with a dropdown menu, and a centered text area for editing the product.

Penjelasan accuser.php :

Form accuser.php ini berguna untuk melihat daftar akun pelanggan. Admin dapat id user, nama user, dan email user yang sudah mendaftarkan.

Accadmin.php

The image shows three instances of the Visual Studio Code editor window, each displaying a portion of the same PHP file named 'accadmin.php'. The code is written in PHP and includes MySQL database queries for selecting, inserting, updating, and deleting data from a 'admin' table.

Penjelasan tambah_admin.php :

Di form daftar akun admin terdapat button “tambah akun” jika diklik maka akan mengarah ke form tambah data admin. Di dalam form tersebut admin dapat mengedit atau mengubah nama admin, email admin, serta password. Di form ini juga terdapat button “cancel” untuk membatalkan dan button “submit” untuk meneruskan proses edit.

KESIMPULAN DAN SARAN

Berdasarkan dari hasil laporan dapat ditarik sebuah kesimpulan yaitu :

1. Bisnis jasa seperti penyewaan baju adat dan dress ini dapat dibuat website HTML dengan bahasa pemrograman PHP, dimana penyewaan baju adat dapat terus berkembang dengan seiring berkembangnya zaman.
2. Website Ann's Clothing ini dapat memberikan informasi dan kemudahan dalam pemesanan pakaian adat dan dress secara online sehingga memudahkan pelanggan yang ingin menggunakan pakaian tersebut.
3. Penyewaan baju adat dan dress ini dapat lebih dikembangkan dan dipromosikan kepada masyarakat luas agar ikut menggunakan pakaian adat Indonesia, maka budaya akan tetap terus berjalan.
4. Hak akses yang ada pada sistem ini memiliki hak akses penuh terhadap sistem dan dapat melihat pengaturan serta dapat mengubah data sistem.

Saran yang dapat dipertimbangkan untuk perancangan program atau perancangan lain ke depan adalah memperindah tampilan website Ann's Clothing ini dimana dapat menarik minat pengunjung lebih banyak. Selain itu, Membangun keamanan dalam database serta kenyamanan fasilitas yang ditawarkan.
